***The Forest,
home for
everybody***

***Backyard
detectives***

***Peter Pan's
Neverland***

Outdoor Art

IOANID SUMMER SCHOOL 30.06-25.07 2014

IOANID has created a **fun and engaging programme** for this summer, in order to keep your children involved in educational activities.

This programme is going to reflect each child's curiosity and desire to learn through inquiry, preventing summer to seem long.

Our July theme is ***FOREST FUN*** and will cover all the subjects: Language, Math & Science, Social Skills, Arts, Music and Sports.

All the activities will occur at

IOANID PRESCHOOL INTERNATIONAL EDUCATION

14, Jandarmeriei Street (Baneasa), the first FOREST SCHOOL in Bucharest, which uses an innovative educational approach to outdoor play and learning in a woodland environment.

IOANID SUMMER SCHOOL

30.06-25.07 2014

PHILOSOPHY

The ***philosophy*** behind the school is to ***encourage*** and ***inspire*** children through positive outdoor ***experiences*** over an extended period of time.

OUTDOOR

It is becoming increasingly recognised that this 'outdoor' approach to learning and play can have a significant effect on the ***natural development*** of children. In the outdoors children have a larger range of choices for play in nature and it was found that children played for longer amounts of time.

FOREST SCHOOL

BUILDING

The ***building*** has been designed ***specifically*** for the younger age range and it is situated on the edge of the forest with an exceptional creative outdoor environment.

THE FOREST, HOME 30.06-04.07 FOR EVERYBODY

Stories:

The Gruffalo

Science :

Nature Table

Wildlife Explorers

Night and Day

Games:

Puppet Show

Mud Cafe

Art & Craft:

Dream Catchers

Forest Collage

Natural Art Materials

During this week we will embrace the outdoors as an inspirational learning environment focused on the child's learning needs. The groups will explore and experience the natural world, learn new life skills through "hands on" learning experiences.

Healthier bodies: increased frequency of physical exercise.

Healthier minds: Space and resources are naturally available allowing individuals or groups to investigate and solve problems.

Healthier environment: an understanding and appreciation of the natural environment through experience

Healthier future: Children develop determination to complete tasks; they learn to work together as a team, communicating effectively.

Stories:

*Sherlock Holmes and
Friends*

Detectives of all Times

Science :

Secret Footprints

Looking for Clues

Games:

Spy Obstacle Course

Treasure Hunt

Art & Craft:

Sensory Bottles

Light-up Fireflies

Giant Butterflies

During this week, children will be **explor-
ing** the fascinating **mini-wilds** of our own
backyard, but in the natural world .

All children really love to **explore** out-
side. They walk around being backyard
detectives and looking at the world a little
closer!

Young nature detectives will **spy** and
identify different **mini-beasts** through
child-friendly natural **science projects** and
a stunning pictorial index.

Bugs have never been so much fun!

PETER PAN'S NEVERLAND

14-18.07

Stories:

Mystery Stories

Peter Pan

Science :

Native Americans

Hidden Treasures

Treasure Map

Games:

Pirates from Neverland

Follow the Map

Art & Craft:

Indian Village

Pirate Boats

Children will discover the **magical island** of **Neverland**, where they will acquire flying abilities and agelessness. This project will take them on a **journey** towards finding Neverland (if that's even possible) and help them to **prepare** for the voyage.

The adventurous group of **explorers** will set off in search of Neverland.

They will have to prepare their **trip** and, during their adventure, they will meet not only Peter Pan, but all the characters in the story: **Fairies, Native Americans, Pirates and Mermaids.**

"All it takes is trust and faith"

Peter Pan

Stories:

Journey Stick

Science :

Homemade Paint

Rain Cloud

Games:

Camouflage Art

Our Little Sand City

Art & Craft:

Tie Dye T-shirts

Spray Bottle Painting

Forest Mosaic

Painting with Ice

Art and outdoor sensory play provide children with delightful ways to experience the joy of self **discovery**, especially when these activities are child initiated and teacher supported.

Many wonderful sensory activities such as making mud pies or spray bottle painting would be prohibitive indoors but are unforgettable **outdoor experiences**.

Sensory experiences with dirt, leaves, pinecones, sea shells, feathers, wood and other natural materials help children develop a positive relationship with nature and appreciate the wonders of earth science.

Sometimes, all that children need is an afternoon in the garden and a little imagination.

OUTINGS

***Each FRIDAY all the activities will be held outside the kindergarten.
With our little ones, curious about everything, these outings will be
the perfect time to try friendly adventures around town.***

30.06—04.07

ANTIPA MUSEUM

07-11.07

DETECTIVES SCHOOL

14-18.07

CHILDREN'S ISLAND (HERASTRAU PARK)

21-25.07

PICNIC AT SNAGOV

EXTRA CLUBS

All the extra clubs will take place at STEJARII COUNTRY CLUB, a complex with an innovative design , which provides integrated sports, in a distinctive environment.
